Profile

A passionate and detail-oriented Computer Science student from Jakarta, driven by the challenge of building impactful full-stack web and mobile applications. With hands-on experience in modern JavaScript ecosystems like *React* and *Node.js*, alongside mobile development with *Flutter*, I specialize in transforming complex requirements into clean, efficient, and user-centric digital solutions.

I am now seeking a challenging internship opportunity where I can contribute my skills to a dynamic team, tackle real-world software engineering problems, and continue to grow as a professional developer.

Skills

Front-End: HTML5 | CSS3 | TailwindCSS | Bootstrap | JavaScript | React.js | Sveltekit

Back-End: Node.js | Express.js | MySQL | PostgreSQL

Languages

English (B2) | **Indonesia** (C2)

Education

Computer Science
Esa Unggul University

2023 – 2027
Jakarta

Projects

El Ngadu

Public Complaint Management Web Application

A full-stack public complaint management app built with React, PHP, and MySQL, featuring role-based access and case tracking.

Rumah Kosim Books

Bookstore Web Application

A full-stack web application for managing books, built with SvelteKit, featuring user authentication and a robust book management system.
